About This Game

Barony is a 3D, first-person roguelike **with cooperative multiplayer** that brings back the cryptic and intricate designs of classic roguelikes such as *Nethack* and melds them with RPGs like *Ultima Underworld*, *System Shock*, and *Daggerfall*. Challenge is the calling card of this hard-boiled dungeon-crawler.

Features

- Gameplay inspired by RPG classics like *Ultima Underworld*, *System Shock*, & *Daggerfall*
- Roguelike mechanics such as perma-death, random dungeons, cryptic messages, and more
- Meticulously narrated action that mimics the insane events one could expect to find in games like *Nethack*
- Intuitive drag & drop interface to manage items and character stats
- Cooperative multiplayer for up to 4 players over internet or LAN (includes Steam and direct-IP connections)
- Hundreds of unique collectible items and loot, including several rare and mystical artifacts
- Chock-full of secret areas, special levels, developer easter eggs, and more
- Bundled level editor, exposed assets, and simple file formats for easy hacking, modding & tinkering

The Story So Far

Barony tells the story of an undead lich named Baron Herx, who terrorized the town of Hamlet in a previous life and is now holding out in a vast subterranean complex known as the Devil's Bastion. As a single hero or a group of adventurers, it is your mission to descend the depths of his abode, confront him in his hellish lair, and destroy him forever. Whether you will simply meet your doom in the dungeons as many have before you or rise to victory against the Baron and his hellspawn is ultimately up to you.

To celebrate the new lunar year, we've discounted both EscapeVR games by 10% - so get it while it lasts!

Happy escaping,

the Sourcenity team. **Oculus Touch support + new languages!:**

Hi everyone,

we've just released version 1.1 of EscapeVR: The Basement!

This version includes support for the Oculus Rift and Touch controllers. You need to have the Rift set up for 360° use, as is described in the [Oculus knowledge base](#)[support.oculus.com]. If you run into any issues, let us know.

We've also added full support for German and Russian, the latter by Ilja Zegars and Igor Golyanov - you should check out their YouTube channel [Тёрки и Телеги!](#)

The update also includes a couple of minor changes to improve gameplay.

We are looking for translators! If your native language is Chinese, Spanish, or French, and you're interested in helping us out, send us an email at contact@sourcenity.com .

Thanks, and have fun playing!

Philip
